

HP Slate 500

The HP Slate 500 Tablet PC is a well-designed device that focuses on productivity. Running Windows 7, this tablet is ideal for professionals who need a powerful, Windows device to use while in the field. It features 2 GB of memory and an Intel Atom processor. The 8.9" wide-viewing angle touchscreen allows you to use your finger or a pen to navigate screens. Weighing just 1.5 lbs and having a listed battery life of up to 5 hours, this device was made for professionals who don't work at a desk. The HP Slate 500 is available from hp.com for \$799.
